SCHOOL REPORT.

The Superintendent of Schools respectfully submits the following report :

DISTRICT No. 1.

Mrs. S. B. Cilley, Prudential Committee.

Summer term of six weeks, taught by Miss Effie M. Bunker, of New London. Miss Bunker commenced this term under favorable circumstances, having won the esteem of her pupils the preceding term she was with them, consequently we expected a successful term, nor were we disappointed.

Fall term of twelve weeks, taught by Miss Ella F. Titus, of Chelsea, Vt. Miss Titus came here very highly recommended, having graduated from the Vermont State Normal School. The amount of work accomplished this term reflected great credit on scholars and teacher. She made thoroughness her main point in all her work.

DISTRICT No. 2.

Mr. Milton H. Clark, Prudential Committee.

Fall term of twelve weeks, taught by Miss Hattie E. Shaw, of this town. This is the smallest school, at present, in town. Miss Shaw had very good success, and commendable progress was made. We are glad to see the improvement made in the school-buildings. Hope the improvement will continue on the inside. On account of repairs there was only one term.

DISTRICT No. 3.

Mr. Willis N. Bly, Prudential Committee.

Summer term of six weeks, taught by Miss Hattie E. Shaw. The scholars during this term were quite young, consequently could not expect as much advancement as by those who are older. The teacher labored hard, and the progress was as great as could be expected under the circumstances.

Winter term of eleven weeks, taught by Miss Maud M. Melvin, of Melvin's Mills. Miss Melvin succeeded in winning the esteem of her pupils, and her efforts were supported by the members of the district. A good term of school was the result.

DISTRICT No. 4.

Mrs. Eliza A. Merrill, Prudential Committee.

Summer term of six, and fall term of eight weeks, taught by Miss Carrie A. Fifield. The school presented a good appearance at all times when your committee visited it, and good progress was made, notwithstanding some contended that the school was good for nothing. The advice of your committee would be to all such, to let little petty jealousies go, and improve the opportunities for their children to get an education while they are young.

DISTRICT No. 5.

Mr. Ezra Cilley, 2d, Prudential Committee.

Summer term of nine weeks, taught by Miss Myra W. Morgan, of Warner. We think this was the most successful term of school that Miss Morgan has taught in this district. Good progress and order were the marked features of the school.

Fall term of ten, and winter term of twelve weeks, taught by Miss Abbie C. Page, of Dunbarton Centre. There are few teachers who take more interest in the advancement of their pupils and and who labor more faithfully for that end than Miss Page.

The district passing a vote to admit those from other districts, has, we believe, had a tendency to increase the interest and raise the standard of the school. The last term had not closed at the writing of this, but judging from the past terms Miss Page has had charge of the school, a good amount of work has been accomplished.

DISTRICT No. 6 (UNION WITH BRADFORD).

Mr. George Eaton, Prudential Committee.

Summer term of ten weeks, taught by Miss Cora E. Tandy, of East Washington. At the commencement of the term, the prospects were favorable for a profitable term of school. Was unable

to be present at the examination, but understand good advancement was made.

Winter term of nine weeks, taught by George Dodge, Esq., of Sunapee, and Mr. C. W. Ward, of Bradford. When your committee visited the school under Mr. Dodge, the prospects were of the most favorable kind, and have no doubt that an excellent term of school would have been the result had he remained all the term; but after six weeks, for some reason unknown to members of the district, or your committee, he left the school without notice. The remaining portion was taught by Mr. Ward. Was unable to be present, not being notified of the close.

DISTRICT No. 7.

Mr. Josiah B. Colburn, Prudential Committee.

Summer term of six, and fall term of ten weeks, taught by Miss Cora R. Jones, of this town. Teacher and scholars labored well and succeeded in accomplishing a good amount of work each term. The citizens of this district, especially the ladies, take a great interest in the success of the school.

DISTRICT No. 8.

Mr. Charles C. Messer, Prudential Committee.

Summer term of seven weeks, taught by Miss Bertha H. Ross, of New London. Miss Ross commenced this term with the confidence and esteem of her pupils and all seemed to labor together to make the school a success, and they succeeded. The examination was highly satisfactory.

Fall term of fifteen weeks, taught by the same teacher. At the commencement, everything seemed to be in a prosperous condition, but at the close we were sorry to see some of the scholars absent, from some reason that we do not know, but presume it might have been on account of the length of the school.

DISTRICT No. 9.

Mr. Richard T. Muzzey, Prudential Committee.

Summer term of six weeks, taught by Miss Alice J. Gove, of this town. This was Miss Gove's first attempt to teach. The school

presented a fine appearance when visited by your committee, and have no doubt good progress was made.

Winter term of eleven weeks, taught by Mr. George W. Cofrin, of Bradford. Was present at the opening of the school, and it appeared to be doing good work under Mr. Cofrin's direction. Was unable to be present at the examination on account of sickness, but a substitute sent took notes, and reported the following: "The recitations in nearly all classes were perfect, and the answers given readily, showing the work was done thoroughly and that the teacher worked faithfully." It was Mr. Cofrin's first school, and have no doubt he will make a very successful teacher.

DISTRICT NO. 10.

Mr. James Craig, Prudential Committee.

Summer term of six weeks, taught by Miss Della A. Peaslee, of Bradford. This was the first school Miss Peaslee ever taught, and, the pupils being very young, could not expect so much to be accomplished.

Fall term of ten weeks, taught by Miss Carrie E. Dow, of Bradford. She was also inexperienced in teaching, but succeeded in keeping a good school. It was larger this term than the preceding, consequently the examination was more interesting than is possible to make it with a less number of pupils.

DISTRICT NO. 13 (UNION WITH SUTTON).

Mrs. Clara D. Nelson, Prudential Committee.

Summer term of nine weeks, taught by Miss Rozina E. Ogilvie, of Sutton. Being well acquainted with the qualifications of Miss Ogilvie, did not visit the school at commencement, but was present at the examination, which passed off with credit to scholars and teacher.

Winter term of twelve weeks, taught by Miss Carrie H. Cooper, of Sutton. Am unable to report the progress this term, as at the commencement was not permitted to visit it, and at close was prevented by sickness. Presume the progress was not any behind that of former terms, as the scholars and members of the district all try to make the school profitable.

GENERAL REMARKS.

There have been, in the aggregate, two hundred and three weeks of school the past year, at an expense (including board,) of nine hundred and forty-seven dollars and sixty-five cents. The average daily attendance has been seventy-seven and three hundredths, making the tuition of each regular scholar twelve dollars and thirty cents. The whole number of different scholars that have attended two weeks or more, is one hundred and fifteen. Number of scholars between the ages of five and fifteen, who have not attended any school, is two. It will be seen by the report of last year that there were five between the ages above mentioned, which was three more than this year.

It has been customary in Districts Nos. 6 and 13 to report all the scholars in the district, but this year it will be seen that only those living in the limits of this town are reported. The reason for it is this : in No. 6 there are only seven scholars residing in Newbury, while in the school there are about three times that number, or fourteen who reside in Bradford. In District No. 13 there are only six of this town and six of Sutton. If these are all reported in each town, there would be twenty scholars reported more than there are.

During the past year a change has been made in the reading books. The old series, "Franklin's Readers," was good, but had been in use some eight years, and scholars had read the selections so many times they had become uninteresting ; therefore, a change

was made, which, I believe, has been for the better. I did not make the change without examining several different kinds, and chose "Sheldon's Series" as far surpassing all others. I think there has been greater interest manifested in reading than for a number of years. Each district has been furnished with a complete set free, which, at the introduction price, would have amounted to twenty-five dollars.

Steel's Physiology and Hygiene has been placed in the schools, as required by law ; and, as will be seen by statistical table, a large number have taken it, which we hope may not be without its benefits to the town at large and the rising generation.

Those who have studied book-keeping have used Meservey's text-book, which is considered the best there is in use.

In nearly all instances scholars have been prompt and ready to do their share to make the schools a success. When a competent teacher has the confidence and esteem of his pupils and the support and good-will of the citizens of the district, then there is no reason why the school should not be a success. I am glad that in so many instances such has been the case. Harmony has prevailed in nearly all districts, and the health of nearly all the pupils has been such as to show very clean registers. In two instances the pupils' ranks have been broken by the removal of two of their school-mates—Mary L. Brockway, of District No. 7, and Olevia L. Snow, of District No. 8. These events should show to all young people the shortness of time, and the necessity of improving every opportunity of getting an education while they are in health.

Thanking scholars, parents, and teachers for the interest they have taken in the schools during the past year, I am,

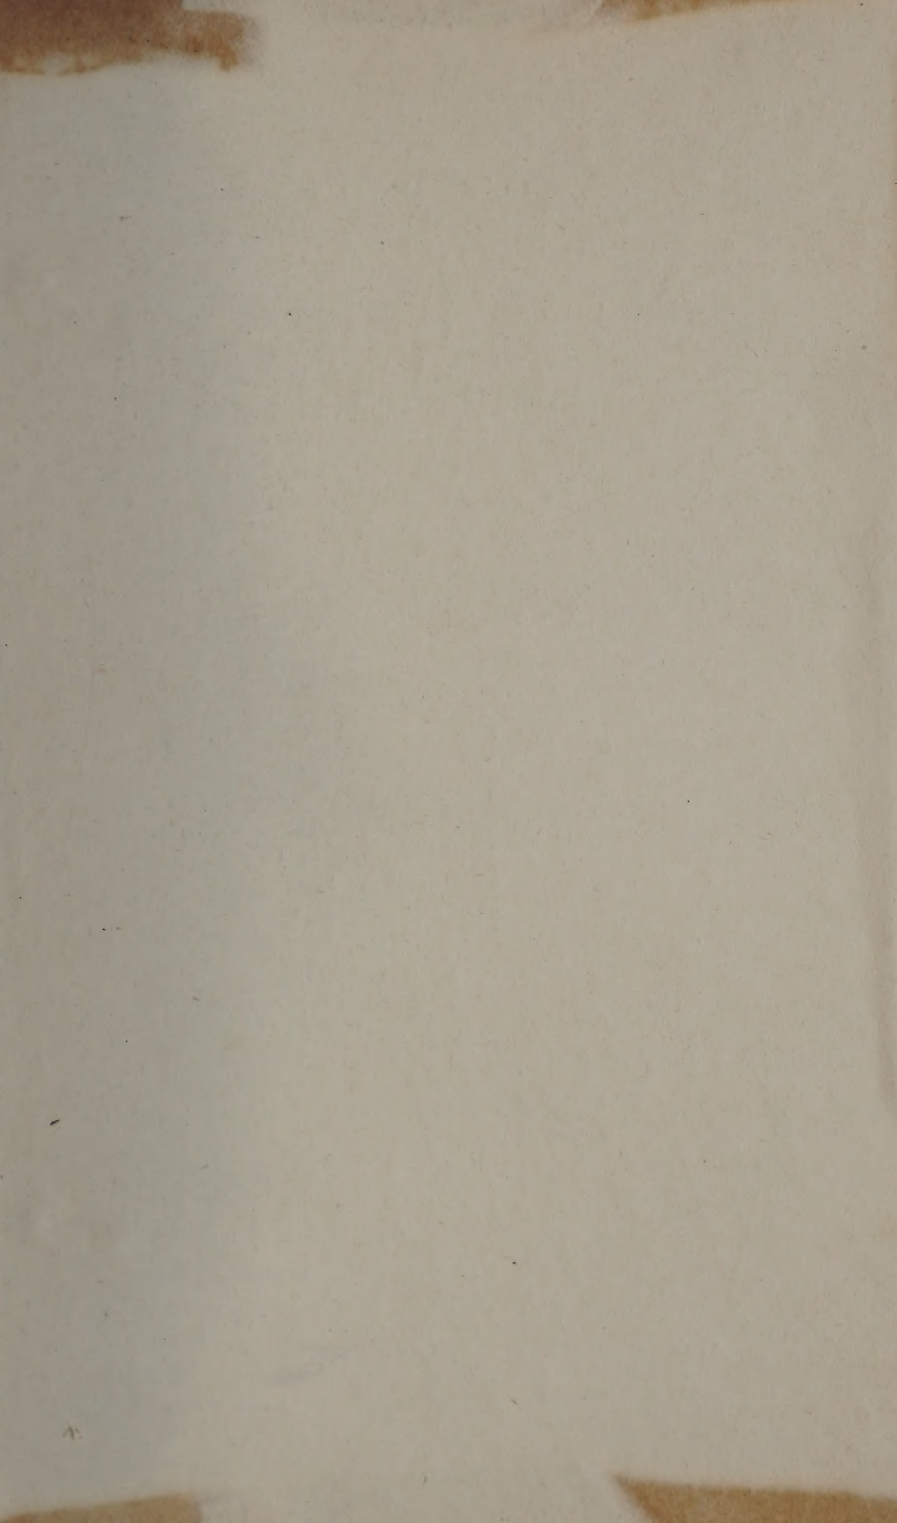

Very respectfully,

CLARENCE B. CHENEY,

Superintending School Committee.
